Ilya Tsoy

As a junior full-stack developer, I am actively seeking a challenging role where I can apply my skills in programming languages such as Java, SQL, JavaScript, and React, along with my proficiency in web development technologies such as HTML, CSS, Bootstrap, Tailwind, Axios, and MongoDB. I am a dedicated learner with a passion for software development, and I am eager to contribute to a team that values collaboration, innovation, and excellence.

Education

- –

Ort Singalovsky *Tel-aviv*

Studied Java, SQL, JavaScript, React, Axios, HTML, CSS, MongoDB, Bootstrap, and Tailwind at college.

Developed a solid understanding of Java and SQL programming languages, along with their syntax, data types, and control structures.

Learned to use React, Axios, HTML, and CSS to create interactive and responsive web applications.

Knowledge in MongoDB, a MySQL database management system, which is widely used in modern web applications.

Studied Bootstrap and Tailwind, two popular front-end frameworks, to create visually appealing and responsive web designs.

Learned to use Git, a popular version control system, to collaborate with other developers and manage project code.

Developed strong problem-solving skills and learned how to troubleshoot common programming errors.

Knowledge with both front-end and back-end development, including server-side scripting, database management, and API development.
